Shandong Ruisheng Pharmaceutical Excipients Co., Ltd. was established in 2012 and is situated in Dong'e, Liaocheng—a region renowned as the "Home of Ejiao" in China. The company is a listed entity on the Qilu Equity Exchange (Stock Code: 172028) and has successively earned numerous prestigious honors, including recognition as a National High-tech Enterprise, a "Specialized, Refined, and Innovative" Enterprise in Shandong Province, and a "3A-level Unit for Quality, Service, and Integrity." These accolades attest to the company's robust comprehensive strength. In 2022, the company officially established Shandong Ruisheng Pharmaceutical Co., Ltd. as a wholly-owned subsidiary to optimize its industrial layout; it has since evolved into a leading, modern, and specialized enterprise integrating R&D, production, and sales of pharmaceutical excipients.

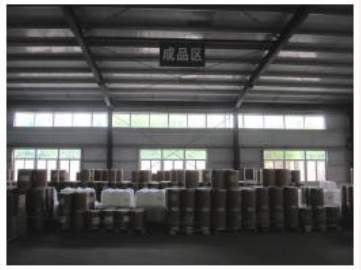

The company primarily focuses on two major product categories: pharmaceutical excipients and food additives. It boasts an extensive product portfolio comprising 33 types of pharmaceutical excipients and 6 types of food additives. The entire product range strictly adheres to the pharmacopoeia standards of China, the United States, and various European nations, as well as national food safety standards. The company has successfully obtained multiple authoritative certifications—including ISO 9001 Quality Management System, 5S Site Management, and Halal certification—thereby establishing a standardized, end-to-end quality control system that ensures product quality is compliant, stable, and fully traceable to its source.

The company consistently upholds its business philosophy: "Holding the Jade of Trust to Demonstrate Integrity; Relying on Quality to Ensure Survival." We remain deeply committed to the excipient industry and steadfast in our original dedication to quality excellence. We warmly welcome business partners and guests from all sectors, both domestic and international, to visit us for exchanges and business negotiations. Let us join hands to cultivate the market together and share in the vast and promising future of the pharmaceutical and healthcare industry.
